Baby Bassinet Redesign

PNR 7250-2xx

The redesigned Innovint Baby Bassinet is the perfect bed for a baby when you are travelling with the aircraft. Its size makes baby feel secure and comfortable, and it is light and portable enough to carry to any stowage in the aircraft. The baby Bassinet is easy to fold- unfold, and easily installed at cabin furnishings. The unique handling makes it easy for the daily crew operation.

Same installation interface (as current model).

- Improved handling and operation
- Positive locking device
- Advanced stylish textile design
- Less parts, less maintenance costs
- Same installation interface
- Redesigned model covered by E-TSO approval

PNR 7250-2xx • mounted
