Soft First Aid Kit

- In compliance with EASA AIR-OPS
- In compliance with FAR-121, subpart X
- In compliance with ICAO, part I

Anticipated shelf life is 18 months, which may be reduced down to 12 months due to the availability of medicine production lots. Zipper can be sealed by tie-wraps, plombs or lockers.

The first aid kit PNR 6240-87S has been strictly assembled to the statutory requirements of EASA AIR-OPS. In addition the kit covers FAR 121, subpart X and ICAO, part I. The red soft bag is made from robust fire retardant material. The first aid kit is especially designed to be stored in AIRBUS A320 headrests of cabin attendant seats, hatrack lifeline spacers and several other unused cabin stowage spaces. It is light weight, easy to stow and has a transparent content paper card pocket visualizing relevant information like serial number and expiry date.

PNR 6240-87S • First Aid Kit, closed
